Vol. XXIV. No. 100. 100

## TELEGRAPHIC.

### WHEAT PRICES STRONG.

Winnipeg, Oct. 27. Wheat values are holding strong.

### DEAD.

An unhappily wedded Galician man died under suspicious circumstances at Prince Albert.

Novelist Frank Norris, of California, is dead.

### BLOCKADE.

A serious condition in the grain blockade exists at Roland, Man. Wheat is lying in heaps in the rain.

### TARLE SPEAKS.

Sen. Mr. Tarle addressed an audience at the Soo, Michigan, on tariff relations.

### FIRE.

Fire broke out in the Guild Hall, London, shortly after the King's luncheon had concluded.

### A GREAT AGE.

Mrs. Mary Ann Mills, of Exeter district, has passed her 117th birthday.

### GENERAL.

E. A. James to-day assumes the duties of general superintendent of the C.N.R. at Winnipeg.

The steamship Saturn, with 115,000 tons of wheat, is still aground in Port Arthur harbor.

Colonial Secretary Chamberlain will visit South America next month and remain until March.

The British Columbia lead smelter experiment at Trail, B. C., has proved successful.

Canadian shoe manufacturers have donated \$200,000 in campaign funds against the tariff.

Manitoba college has launched the King memorial fund at Winnipeg.

King Edward and Queen Alexandra have entered London in state.

On Saturday 12,000 tons of coal were mined in Pennsylvania.

Lord Roberts will cross to the United States next September.

### LOCAL.

—Father Cunningham went to Leduc Saturday.

—A. G. Harrison went to Calgary this morning.

—Jas. H. A. Gray went to Wetaskiwin Saturday.

—Mayor Short left on Saturday morning for the coast.

—Miss Short, sister of Mayor Short, arrived on Saturday night's train.

—Jas. Huxton, of Calgary, boiler inspector, arrived in town Saturday evening.

—School Inspector Bryan returned Saturday from a tour visiting schools in the agricultural settlement.

—Chester Bros. have installed a 50 light dynamo in their planing mill. It was purchased from the town and gives good satisfaction.

—Geo. Manuels, of the Massey-Harris, returned on Friday evening from Wetaskiwin, where he took part in judging horses at the fair.

—A. Cristall has taken over the grocery store of B. Cristall, north of Leduc, Edmonton, auction houses, A. W. Beckett is in charge of the business.

The condition of A. Stewart is very critical to-day. He is suffering from internal injuries received by over lifting while moving a building some ten days ago.

—Col. Hughes returned on Saturday from a trip across to the Canadian Northern territory lake, where he leaves for Winnipeg and Ontario this week.

—Mrs. K. A. McLeod and two children returned Friday evening from a month's visit at Medicine Hat. She was accompanied by her sister, Miss Clara Leander.

—E. Kelly, of the Hudson's Bay Co's employ, arrived in Edmonton Thursday evening from their northern trading posts. He will probably remain some time in town.

—Rev. Mr. Austin, of Wetaskiwin, was present in exchange with Rev. H. A. Gray. Mr. Austin returned to Wetaskiwin this morning.

—The sale of C. P. R. lands at the Edmonton C. P. R. land office has not been checked by the advance in price to \$5 an acre. The demand for land in the Vermilion district is as brisk as ever.

—There was shooting at the rifle ranges on Saturday. Regular practice is doing its work, and some good scores are being made by many who are being made with the rifle this summer.

—Wm. Childer was sentenced yesterday by P. M. Cowan to three months imprisonment with hard labor at Fort Saskatchewan, for stealing a picklock off a load of hay standing in the market square.

—There will be a council meeting of the board of trade in their room tomorrow morning, Tuesday at 10:30 to discuss what can be done re market for oats and other matters. All grain men are cordially invited to be present.

—A telegram has been received from the postmaster general to the effect that a daily postal car service will be given on the C. & E. line in connection with the daily express. Formerly mail was distributed to or received from points along the line only every other day. Now an extra mail clerk will be assigned on the line and the mails distributed every day.

—A short time ago R. F. Stupart, Dominion government meteorological observer at Toronto, made certain statements regarding the climate of the Northwest which appeared in the Toronto World. The statements reflected particularly on Alberta, and were incorrect. The Bulletin published a somewhat heated comment on Mr. Stupart and his statements at the time. The expected has happened and the Chicago Record-Herald is using Mr. Stupart's statements to injure the Northwest in the eyes of prospective immigrants as much as possible.

—Train on time.

—Schools are closed to-day and tomorrow for the teachers' convention.

—Commissioner Perry, of the N. W. M. Police, is expected to arrive on Wednesday.

—Mr. Jackson, of Dobson, Jackson & Fry, contractors, arrived on Saturday's train.

—A. E. Pattison, farm instructor at White Horse lake, is in town on a short visit with his family.

—Fine weather continues. Pansies, asters, sweet peas and other of the hardiest flowers are still blooming in the gardens in town.

—Court is not sitting to-day. The Russian church case is adjourned to tomorrow criminal cases will be taken up. There are eleven criminal cases yet to be disposed of.

—The annual meeting of the mechanical and literary institute will be held in the institute rooms in the McLeod block next Thursday evening at 8 p. m. A full attendance is requested.

—The sewer and waterworks pipes are laid and covered in as far west as Third street and ground is broken on Fourth from Jasper to Victoria avenues. Work will begin on the brick sewer on Namoy avenue this week.

—The new settlers in the vicinity of White Horse lake have been blessed with abundant crops this season. They had no hail, and threshing is completed. Although sixty miles from the city the country is settling up rapidly and a great deal of breaking has been done.

—Dr. and Mrs. Carshaw, of Qu'Appelle, Assn., spent some time the week before last in exploring the White Horse lake country with a view to location. They were delighted with the outlook and the doctor located a half section on the shore of the lake. They expect to remove from Qu'Appelle next spring. Dr. Carshaw has practiced at Qu'Appelle for a long time and his settlement at White Horse lake will be a great acquisition to that part of the district.

### TEACHERS CONVENTION.

The annual fall convention of the Northern Alberta Teachers' Association is in session to-day at Grandin in the Strathcona, and will be continued to-morrow.

The chair was taken at 9:30 this morning by President Ramsey, who gave an address of welcome on behalf of Strathcona and Edmonton, to the visiting teachers. A short business session then took place. Miss Currie opened the program with a paper on "School room Decoration." Discussions of the subject followed. Miss Jekyell then taught a Junior Standard III literature lesson. Lengthy discussions of the lesson completed the forenoon's work.

The teachers in attendance are: D. S. MacKenzie, Edgar Richardson, Mabel R. Chandler, Lettie M. Lobb, A. A. Marjorie Munn, H. Laidman, K. C. G. W. Osborne, B. M. Battrick, E. Miller, M. C. Barker, C. E. Bleakney, A. M. Shaw, E. J. Curry, M. M. Young, M. W. Currie, A. V. Jackell, K. Spackman, C. B. Brown, A. M. Mackay, M. J. McLean, J. Miller, J. F. Robinson, K. L. Hargart, H. Magee, Arthur G. Ingle, H. B. Anderson, I. B. Hooper, Jas. A. McKinnon, Jas. Weir, W. J. Hobbs, Harry Van Allen, A. M. McCauley, P. Monaghan, R. B. Ritchie, Isabelle M. Durham, C. R. Kent, Edna Sutherland, Grace C. Martin, C. K. Blain, Gertrude Sutherland, B. S. Asher, Annie Lyle, Sarah E. Ferguson, V. Pearl Clements, D. C. McEachern, W. G. Sparring, Bessie Bearisto, Ethel Mirson, Vera L. B. York, Fred Wm. Kerr, W. Ramsay, Carl Robertson, Jas. T. J. Collison, B. Anderson, C. E. Blackett, J. W. Sifton, H. A. Wade, A. Martin, J. Spencer, F. R. E. McKelrick, J. A. Conner, F. R. E. McKelrick, E. N. Watson, Augusta Willie, Lellia V. Doze.

### BLACKETT-UMBACH.

The following marriage notice appears in the Winnipeg Telegram of October 27th:

"The wedding of C. E. Blackett, organist of All Saints' church, to Miss Marion Umbach, was celebrated yesterday at 8 o'clock at that church by the rector, the Rev. F. B. Smith, B.A. The service was choral, the choir turning out in force to sing the office. The bride was given away by Edgar Davis, the doyen of the choir, and the wedding breakfast was partaken of at the residence of the genial rector of the church, where a fine evening's enjoyment was provided for the wedding party. The groom is well known in Winnipeg and Brandon."

The bride is the eldest daughter of P. Umbach, of Edmonton.

### GRAIN SHIPMENTS.

The following notice was posted up in Strathcona station on Saturday:

"Until King's elevator at Fort Arthur is in condition to receive we cannot accept for storage at Fort William rejected and no grade grain. Any grade grain now on cars will be subject to owner's instructions as to disposal. Wheat grading rejected one will be taken in at Fort William until further notice."

EDMONTON AND STRATHCONA.

WHEN YOU SEE THEM.

LARGE SHIPMENT  
JUST SHIPPED UP.

WITHOUT DOUBT the handsomest lot of fall and winter blouses ever shown in Edmonton. We believe that the values are also the best ever offered here.

PRINTERS' INK cannot convey any adequate impression of the dainty beauty of these blouses. They must be seen. We invite you to call and inspect them.

WE WOULD QUOTE PRICES, as our prices will stand quoting; but it is no use unless you see the goods. We have them at all prices, from a serviceable flannellette blouse in handsome patterns, at \$1.00, to an elaborate silk garment, handsomely trimmed, in black, and also popular shades, at \$7.00. Our silk waists at \$3.50 and \$4.00 are especially good values. As are those at \$6.50; also the cashmere, lustre, and flannel blouses, at \$1.75, \$2.00, \$2.25, \$2.50, \$2.75, \$3.00, \$3.50 and \$4.00.

THERE'S NO ROOM for improvement in the style and finish of these waists. Fit and workmanship are absolutely perfect.

LET US SHOW THEM TO YOU.

## Why Glasses are Worn.

For a long time glasses were used only to assist in reading or near work, but with increased knowledge of the eye, we are able to adjust glasses to improve the sight, thereby curing chronic headaches, neuralgia and many nervous afflictions caused by eyestrain.

The thousands who wear properly adjusted glasses are the living testimonies to the truth of it. Examination free.

## THEY ARE HERE OPEN FOR INSPECTION OUR FALL SUITS

Four Hundred Men's, Youths' and Boy's Suits just arrived and placed into stock, every one of which displays itself in correct style, elegant workmanship, and perfect fit. This means a big assortment to choose from, and we are fast gaining a reputation for big values in Clothing.

\$5.00 buys a fair Suit.  
\$7.50 buys a better grade.  
\$10.00 buys a good Suit.  
\$12.50 buys a Suit good enough for anyone.  
\$15.00 buys a Suit to suit the most fastidious.

Lots of other prices, but the above are our leaders. This space will not allow us to tell you half about our Suits. We are the largest dealers in Clothing in Edmonton. See us for your Fall Suit. Big stock already on hand.

JOHN I. MILLS, Edmonton.

## Are You?

Are you going to build a Store, House, Barn, Granary of any thing else?

Are you going to make any repairs about your place?

Are you looking for the best manufactured lumber?

Are you looking for the lumber firm which will give you the order careful attention?

If you can say "Yes" to any of these questions, we beg to inform you that we are getting in the largest and best stock of Building Materials we have yet had, and will do our best to give you satisfaction in price and quality.

## RESIGNATION OF

HON. J. I. TARTE

The resignation of the minister of public works is a political event of the first magnitude. It is the most marked event in Canadian politics since 1896. Its importance is not so much because of the position occupied—although a very high position—or of the record and abilities of the occupant, long and brilliant though they were; as because it marks the raising of a new issue in Canadian politics, and the centering of attention on a new leader. The late minister of public works while still minister took upon himself to voice murmurs already heard, for a prohibitive tariff in favor of Canadian manufacturers. This was not the avowed policy of the conservatives before 1896, and much less was it the policy of the liberals since that time. The avowed policy of the liberals was to adjust the tariff with a view to equalization of the burden of taxation. The avowed policy of the conservatives before 1896 was to so adjust the tariff that it would aid Canadian manufacturing industry. But the policy advocated during the last three months by Hon. Mr. Tarte, and which caused his severance from the liberal government, was an adjustment of the tariff so as to prevent outside competition with Canadian manufacturers in Canada.

This is the issue which the resignation of the Hon. Mr. Tarte places squarely before the country. It is the demand made officially by the manufacturers association in meeting assembled at Halifax. It is the demand made by the several representatives of the cotton, woollen and other industries who have been interviewed for publication. It is the demand which has been voiced by members of both sides on the floor of the house of commons. What the movement needed was a leader, that leader is now in office by right of natural selection, and his name is J. I. Tarte. In the government or, for that matter, in the opposition, the manufacturers of Canada recognize in Mr. Tarte the man who is to organize victory for them.

There is a possibility that many good people who support the liberal party as the party of low tariff will take for granted that now that Mr. Tarte is out of the cabinet, the danger of higher duties or of the wreck of the government is over. As a matter of fact the danger has only begun. The late minister is a strong man and he has a following. Just how strong he is or how large is his following will duly appear in the march of events. Although still allied with the liberals his principles are much more nearly in line with those of the conservatives. The question is: How many French liberals in Quebec and how many protectionist liberals in Ontario will stand by him. He is a capable and energetic man, he has sacrificed office for principle, it is a cardinal feature of his political belief that elections are not made with prayers. Why should he not rally to his support enough liberals to enable him to dictate terms to either one party or the other, provided either would accept his dictation. As to the liberals, the action of the premier in asking for his resignation, indicates that the chances of an open rupture will be taken rather than his terms accepted. It would seem that no other course is open. For if the liberal party adopted the theories of the liberal minister most of the members would consider that his cause for existence had ceased. Not so with the conservative party. The difference between a prohibitive tariff as preached by Mr. Tarte and the protective tariff of 1887, is only in degree, not in kind. Whatever support Mr. Tarte can carry from the liberal to the conservative camp will naturally be accepted there, and there will be no stick as to terms, or all the records are wrong.

The fact is that the great wealth producing industries of the country, farming, mining, lumbering and fishing, are in imminent danger of being sacrificed to the minor industry of manufacturing. At first glance that would seem impossible. But it is not. The manufacturers are a compact and united body. They hold the great centres of population which influence the public mind of the whole country. They always have funds available for political purposes, and the best legal, political and editorial skill that money can buy is always at their command. When other industries are prosperous the men engaged in them become careless of their interests. In good times or bad times the cry of the manufacturers is still "Give, Give." Twenty years ago they were "infant industries" which needed assistance for a few years. Now they are in

the hands of combines, they never were as prosperous as to-day, and now they insolently demand not a protective but a prohibitive tariff. Of the late minister a few words of personal mention are in order. No man in public life was ever more cordially and universally hated by his opponents than he. And no man was ever more successful in administering a difficult department so that neither he nor the government were subjected to effective criticism. His name stood for everything that was evil. But millions of money passed through his hands during his six years tenure of office, and no allegation was ever made in parliament, much less proven, that a cent of it stuck to his fingers. He had a marvellous capacity for business in general and in detail. His ability to meet and deal with men individually was only excelled by his ability to state his case and uphold his cause on the floor of parliament. His fault as an administrator was that he insisted on having everything pass through his own hands. In such an immense department this was a physical impossibility and hence delays occurred which were altogether foreign to his own policy of prompt dealings. It is possible too that he had an exaggerated idea of his own importance to the government. It is not meant to be unkindly said that he can be more dangerous when out than he ever was helpful when in. But the premier felt his indebtedness to him and stood by him until the limit was passed in his present high tariff campaign.

## B. C. Mines Again at Work.

Rossland, B. C., Oct. 14.—It has been many weeks since the tonnage of the camp has passed the 8,000 ton mark, but last week the continued shipments from the War Eagle and Centre Star mines and the steady output of the Le Roi and Le Roi No. 2 the mark was reached and with a few tons to spare, the actual amount shipped from the camp being 8,072 tons for the week, as against 7,760 shipped the week previous. During the year the quarter of a million mark was passed. There is little doubt that after the Le Roi starts shipping at the regular capacity of the mine and the Le Roi No. 2 keeps up her average made during the previous year and with the enhanced shipments from both the Centre Star and the War Eagle the camp's tonnage will easily average from 10,000 to 15,000 tons a week. The shipments during the week would probably have averaged more but for the fact that the Le Roi No. 2 failed to ship on either Saturday or Sunday last. This was due to the fact that some alterations were being made at the head works of the mine, which when completed will greatly facilitate shipping operations.

Shipments from the Rossland camp for the week ending Oct. 11 and for the year to date are as follows: Le Roi for the week 3,710, for the year 176,716; Le Roi No. 2 for the week 952, for the year 50,561; Centre Star for the week 1,850, for the year 15,381; War Eagle for the week 1,380, for the year 8,846; Rossland, B. C., for the week 2,400; Giant for the week 30, for the year 2,575; Cascade for the week 300; Columbia Kootenay for the week 30; Bonanza for the week 90; Velvet for the week 110, for the year 800; Spitzee for the year 20; White Bear for the year 3. Totals for the week 8,072, for the year 257,314 tons.

Grand Forks, B. C., Oct. 14.—Boundary district ore shipments for the past week were 11,686 tons, made up as follows: Granby mines 4,543 tons; Snowshoe, 780 tons; Mother Lode, 4,544 tons; Sunset, 560 tons; B. C., 750 tons; Emma, 510 tons.

## Auction Sale

OF Heavy Draft Horses

WAGONS, HARNESS, BUGGIES.

East Edmonton. Edmonton and Strathcona.

## IMPROVED CONDITIONS

The advent of the railway to the actual valley of the Saskatchewan, which is now an accomplished fact, means something more than merely bringing transportation facilities three miles closer to an established business centre. It means a junction for the first time between the railway and the water transportation of the upper Saskatchewan. There is an immense stretch of river and timber at Kesteven above Edmonton, for 200 miles and more to the mountains. There is an immense quantity of coarse timber, as well as of good saw timber, on these streams easily floatable to Edmonton. Now that the transfer from river to rail can be easily made all that timber becomes available for the country reached by the railway, and no doubt a trade will develop. There is also coal and building stone up the river, trade in which may very well be developed by the facilities afforded by direct transportation to the cars.

East of Edmonton the river is navigable a thousand miles to the rapids at its outlet into Lake Winnipeg. Flat boats can well carry freight from Edmonton to the next railway point, Prince Albert, 500 miles distant. There is no doubt that the fact that flat boats or steamers can now be loaded direct from the railway will aid greatly in developing that trade.

The towns of Edmonton and Strathcona are both built on the level upland two hundred feet above the river. There is no doubt that the river flats between offer great advantages in a situation to all industrial establishments which require a large amount of water and fuel as industries of almost every kind. But the lack of a railway down to the flats was a great drawback to the establishment of industrial enterprises there. With the completion of the railway the flats are all the railway advantages of the upland and its own special advantages as well. We may therefore look to see industries already established on the flat develop as the river otherwise could not, and still others be started as the result of the extension of the railway.

## BEAVER LAKE WEST.

Harvesting has been completed for several weeks. Almost all the settlers have also had their threshing done. The quantity of the grain has not come up to expectations, but the quality has been excellent. Logan's and Sturritt's threshing outfits are doing the work of threshing throughout the district. While this has in some cases averaged 35 bushels to the acre and oats 60 bushels, barley is a good crop this year but rye is a failure. The root crop has been a success.

Beaver lake is still receding. It has gone down nearly 21-2 feet.

The roads are in excellent condition with the exception of the bridges, Ketchikan and Hastings Creek crossings are in bad condition. At Kesteven, the water having gone down low enough, a crossing in the creek bottom has been made, and travel is going that way. The bridge being a very bad condition. It is fortunate, however, that instructions have been given by the government for these bridges to be reconstructed and safe crossings effected.

A. C. Rutherford, M. L. A., and A. Driscoll, D. L. S., paid a visit to this district last week, coming out by way of the base line trail and making an inspection of the arrangements of public works appropriations throughout the constituency. We are glad to learn that in addition to the appropriation already made for local bridge construction about \$1500 will be spent on the base line trail next spring. This amount should go a long way towards making this road passable the year around.

G. Lee's engine, which has been running Sturritt's Bros. threshing machine, gave out last week and R. Sturritt went to Edmonton and secured A. McCauley's engine to finish the season's work. Sturritt's machine is doing fair work this season.

It is with pleasure that we learned from the Editor Bulletin that some philanthropic patriot in the east was contemplating sending us a national flag as a present. In anticipation of the receipt thereof a ninety foot flag pole has been secured which will be placed in an advantageous position on the public grounds.

A public necessity has at last been made a matter of fact. A store has been established near Tofted which is centrally located in the district, R. N. Whillans has built a store at his residence and has laid in a stock of general merchandise. In the near future he intends removing to Tofted, post office which location which will be still more central.

Last week strawberry blossoms and green strawberries were found on the strip of land between Hastings and Cooking lakes.

Several prairie fires have been raging east of and some miles south of Beaver lake.

Oct. 23.

## BATTLEFORD.

Saskatchewan Herald, Oct. 15.  
A. J. Prongha has the Mounted Police contract for potatoes at 40c a bushel for immediate and 50c for spring delivery.

Dr. McCulloch, of Owen Sound, who has been touring the Saskatchewan Valley in search of a place to settle, passed east on Sunday's train.

B. Prince, who had his leg broken six weeks ago, had the bandages removed on Saturday and is able to move about on crutches. Taken altogether he made a good recovery.

Last year Messrs. Messingill, of Maple Creek, took a band of young cattle from this district, and are now evening-up by sending in a lot of horses. Last week they brought in a bunch of thirty-two fine ones, mostly Percherons, all of which were purchased by Mr. Champagne immediately on their arrival. They are the finest bunch ever offered in this market and are meeting with ready sale singly and in teams.

A prairie fire that started west of the Sixty-Miles Bush last week came towards the Eagle Hills, endangering the safety of the line of settlement along the base line. On Friday and Saturday parties of citizens and Mounted Police went out and joined with the settlers in beating it out, and again on Sunday citizens put it out to a point where the Indians of Sweet Grass reserve took up the work. The entire distance from the Swift Current trail to beyond Poundmaker's is free from danger from the plains, the fire having been guided to the borders of creeks that traversed the burned district and which now form an impassable barrier to fire.

## EXTENSION OF THE GARREY BLOCK

The extension to the north end of the Garrey block is nearing completion. The brick work will be finished on Monday and the roof immediately put on. Lathing is in progress also. The addition is 75 feet long by 50 feet wide making the total length of the block 150 feet, or full length of the lot. The rear wall of the old part will be torn away on the ground floor adding the new space directly to the main store. The corner lot is taken advantage of by having entrances from McDougall street into the new part, as well as the old entrance on Jasper avenue.

The addition is built of solid brick 2 stories high with full basement. The roof will be galvanized iron and the cellar floor concrete. The rooms are fitted throughout with electric lights and a sewer connection with the main on Jasper avenue. Waterworks will be installed next year.

The cellar contains 2 storerooms one 30x40 feet and the other 45x40 feet. It is connected with the cellar under the front part. A modern elevator will be installed for handling heavy merchandise, and will extend through the cellar and upper storeys.

The ground floor contains a book-keeper's office 10x12 feet, private office 10x12 feet, a store room 30x40 feet in the rear and the remaining space will be added to the front store space. The ceiling is 14 feet high, covered with metallic ceiling. A stairway from a side door opening on McDougall street leads to the front upstairs rooms and another wider stairway runs up from the store room. There are 2 openings on McDougall street for receiving merchandise.

The second store contains a dry-goods store room 30x40 feet, a grocer's store room 20x40, and a room 25x30 feet to be used as an assembly room for societies or the board of trade. Connection is made with the hall in the front portion of the building and a back stairway leads into the yard to the west.

Attached to the west side a solid brick coal oil house where all oil will be kept for safety.

The building when complete will be handsome and substantial. It will be finished about Nov. 1st, and immediately made use of by Garrey & Leonard, whose business has forced them to enlarge their premises.

## BRICK

Building Brick in large and small quantities.

All orders promptly filled.  
Export trade solicited.  
Prices quoted on application.

OFFICE AND YARDS: West of Walter's Saw Mill.

## CALGARY &amp; EDMONTON BONDHOLDERS.

The London, England, Financial News, of October 8th, reports very fully a meeting of the bondholders of the Calgary & Edmonton railway as follows:

A meeting of the bondholders of the Calgary & Edmonton Railway Company was held yesterday at 6 Princess street, E. C. To consider the present position of the company, to appoint a committee to arrange either for the sale of the property or the future working of the line, and generally, for the protection of the bondholders' interests." Mr. George Grinnell-Milne (of Messrs. Chaplin, Milne, Grenfell & Co. Limited) presided.

The notice convening the meeting having been read.

The chairman said: I shall probably most briefly and clearly explain the immediate cause of the calling of this meeting by reading a letter from a firm have received from Messrs. Osler and Hammond, of Toronto, with respect to the working of this line. Mr. Osler, though now in this country, is precluded from attending this meeting because he is a director not only of the Calgary & Edmonton Railway Company, but also of the Canadian Pacific Railway, and is therefore unable to attend. This letter is addressed to my firm, and has been handed to us by Mr. Osler upon his arrival. "As you are aware, this road has been operated for the past six years by the Canadian Pacific Railway Company, that company having provided all the rolling stock and given to the Calgary & Edmonton Company a most favorable division of gross earnings. The term of this agreement has expired, and the road is being operated on a month-to-month agreement. The Canadian Pacific Railway Company have notified the Calgary & Edmonton Company that they will not continue operating in the future on the same favorable terms as to division of gross earnings, and, further, that it will be necessary for them to have an agreement extending over a long period of years. Should an agreement of this nature be made, it will be necessary for the bondholders to agree to scale down the interest on their bonds. Failing being able to make an agreement with the Canadian Pacific Railway Company, the Calgary & Edmonton Company must at once arrange to operate its road as an independent property, and must provide for rolling stock, car shops, etc. This will involve the raising of a considerable sum of money. You are aware that the road suffered from serious damage by floods this summer, and that a sum of money must be provided to replace the bridges and culverts washed away, and to put the road-bed in proper condition. For this purpose a sum of \$150,000 is required. For car shops and rolling stock the lowest estimate would be \$600,000; of this amount, however, probably \$600,000 could be raised by means of a car trust, leaving a sum of \$450,000 as the amount required to be raised at once to enable the road to be operated as an independent line; and, further, if the road is to be maintained as an independent property, it will be necessary to provide for the building of two or three branch lines north of Calgary and eastward into territory which now supplies a considerable share of the company's business, but which will be occupied by another company if this company does not in the near future provide for these necessary extensions. As the Calgary and Edmonton bonds are so scattered, we think that it will be necessary to call a meeting of the bondholders, and submit to them the present position, and probably it will be wise to have a small committee appointed on behalf of the bondholders to act in their interests, and determine as to the future policy. We enclose you memorandums from Mr. Brooks, who is the engineer of the Calgary and Edmonton road, giving his statement as to the rolling stock required and work to be done on the road. That letter has come into our hands within the last week, and we naturally thought it our duty to bring it to your notice at the earliest possible moment. Although the major part of that letter dwells upon our arrangements with the Canadian Pacific, it is not for a moment to be considered that they are the only string to our bow. Because for some time—six years in fact—we have been working under this agreement with them, and it has doubtless, from many points of view, had its advantages for us, it is not to be supposed that it has not had reciprocal advantages for the Canadian Pacific Railway Company. They have worked doubtless in our interest; but at the same time they have not been without their own. Though I should be sorry to say anything at this meeting which would in any way prejudice any negotiations we may wish to enter into with them, we cannot afford for the moment to lose sight of the fact that in any bargain we are likely to make with them they will take care of themselves. We shall not easily forget that the Canadian Pacific have in the near future to develop some 7,000,000 acres of land to the north and northwest of their line, and that our Calgary road, running 100 miles north from Calgary to Edmonton, will be of the very greatest advantage to them in throwing out seeders to open up this new country, which at present is not in any sense of the word populated; but should they not come to an agreement with us, they will be obliged to build a line across at their own expense, and even if they do that in the shortest time possible they will lose a considerable amount of valuable time before that road is high and working, whereas, if they come to an agreement with us, they get a road which, from some points of view, might be in a better condition than it is, but which, at any rate, is a very useful and workable road; and they will not forget, in any negotiations that they have got in their hands at present, a property which is not objectionable for them to throw away, therefore, we are not entirely at their mercy. On the other hand, we know that there is such a thing as the Canadian Northern railway. Since this notice went out, we have had inquiries from bondholders as to whether any negotiations are in progress with that company. I know of none whatever. At the same time, that road is there, and we also know that Mr. James Hill is not very far off the other side of the United States boundary, and that he has always had a desire to spread the ramifications of his roads into Canadian territory; therefore we are not absolutely hung up in the power of the Canadian Pacific. We think, therefore, that at the earliest moment a committee should be in touch with the Canadian Pacific authorities, or with the directors of any other roads which might be inclined to come to an agreement with this company; and it is with that object that we propose to ask you to send us your assents, after you have agreed—as I hope you will do today—to the

appointment of a committee which shall look after these negotiations. Now, in order to put this committee into a position for negotiation we want you to send in your bonds and your scrip. We have communicated with the board of the Calgary company, and, as far as we can see at present, there is not likely to be any expense attached to the deposit of these bonds or to the arrangements of this matter. The board of the company will, we hope, be able to arrange for the payment of them, but should there be any unforeseen expenses we shall have to notify you later. We hope you will not only send in your bonds but your scrip, for whatever that scrip may be worth, it will at any rate come up in any negotiations that are made between ourselves and any other company. Therefore, there is no need in any bondholder, thinking that because his scrip is not a marketable security he can leave it in his box in the hope of getting a better arrangement later on. We earnestly ask you, if you agree to the proposal made to you today, to put in both your bonds and your scrip, for which it is proposed to issue certificates which, we hope, will be negotiable securities. At any rate, the scrip will be a bearer security, and pass from hand to hand. I will now propose: "That a committee be appointed to represent the holders of the debentures of the Calgary & Edmonton Railway Company, and to protect their interests, and that such committee do endeavor to make arrangements for the future operation of the railway in such manner and upon such terms as they may think fit, and do advise the debenture holders as to the best course they should adopt." Any arrangements this committee make will be of reference to the bondholders.

Mr. John Young seconded the resolution, which, after a brief discussion, was carried unanimously.

The chairman next moved: "That such committee do consist of the following gentlemen, with power to add to their number: Mr. Robert Harrison (of Hichens, Harrison and Co.), Mr. James Ross (of Montreal), Mr. Leonard B. Schweitzer (of A. Keyser and Co.), and Mr. William Trotter (of James Chapel and Co.)."

Mr. Watts seconded the resolution, which was also unanimously agreed to. The proceedings then terminated.

## For Sale.

The following is being offered for sale:

One 60 H. P. Leonard boiler, 28 inch, 47 ft. steel smoke stack, 28 inch, 2 boiler feed pumps, One 1-inch Metropolitan injector, 45 3-inch boiler flues, 11 ft. long. Full particulars can be obtained at Town Office, and articles inspected at electric light station.

Douglas  
BookstoreTHE MAN  
FROM GLENGARRY

We have just got in 100 copies of this popular book.

See our window display to night. Our price is the publisher's price, \$1.25.

"The Literary Digest speaks as follows about the 'Man from Glengarry': 'The opening of the story is Homeric and of fine quality. There is nothing in this book comparable to the fight. They are spiritual and physical; and if the former are closer to Mr. Douglas's heart, the latter are pictured by his pen with a more passionate intensity. . . . The life in the words of these shanties affords the most detectable reading. . . . Mrs. Douglas, an admirable figure, undoubtedly her prototype in the author's mother Mary Fisher, son Gordon taught philosophy at Mount Holyoke when she was twenty, and declared the principalship later to marry a young Scotch clergyman, and retired with him to the wild isolation of the backwoods.'"

H W B Douglas

J. A. STEPHEN,

Real Estate Agent, Edmonton

Office 1 door east of Postoffice.

## THE NEW BANK.

The Edmonton branch of the Canadian Bank of Commerce opened for business to-day in the east half of the new McLeod block, which had been handsomely fitted up for their occupation.

The bank premises include the full east half, basement, ground floor and upstairs. The length is 70 feet and width 24 feet. The rooms are heated throughout with hot water and lighted with electricity. Waterworks will be installed next year.

In the basement are the boilers used for heating, coal bins, and storage rooms for bank supplies or fixtures.

The ground floor is arranged for the banking business. The furniture is solid oak, handsomely designed, and stained and polished. It was manufactured by the Globe Furniture Co. of Walkerville, Ont., and sent up by the bank. A large Taylor safe has been installed for storing the books and a smaller burglar and fire proof safe weighing 3400 pounds, contains the cash. The ceiling is covered with metallic ceiling and two large plate glasses and three picture glasses in the front give splendid light.

Upstairs a suite of rooms including a reading room are furnished for the employees of the bank.

The staff for the present will consist of T. M. Turnbull, manager; P. H. Jory, accountant, and A. E. Band Teller.

## THE MARKETS.

There is a good demand for all kinds of farm produce outside the grain market, which is quiet as yet.

Butter is worth from 15c to 20 cents a lb.

Eggs are in good demand at 20 cents a dozen.

Potatoes are worth from 25 to 30 cents a bushel.

Chickens bring from 6 to 8 cents a lb.

Hogs are scarce, the supply falling far short of the demand. Prices are firm at 5-1/2 to 5-3/4 cents a lb., having raised 1-1/2 cent.

Beef and mutton remain stationary at the usual prices.

Hay sells at from \$5 to \$7 per ton, and green feed at \$5 per ton.

Oats are still coming in slowly and the market is still uncertain. The Brackman-Ker Company dropped the price of milling oats from 25c to 22c last week. Dealers are talking of 17c to 18c for feed oats but are not anxious for them at any price until the market conditions develop. The wheat market is more satisfactory than that for oats. The local mills are paying 58c for No. 1, and there is no complaint as to quality.

## PRINCE ALBERT.

Advocate, Oct. 20.

As the threshing season progresses, the encouraging report of good wheat yields are being made all along the line. From thirty to forty bushels to the acre is the answer to almost every enquiry, and that together with an excellent sample, is a rule. Truly, the farmer is the prosperous man this season.

Two new threshing outfits were introduced at the C. P. R. depot last week, one for Mr. A. E. Evans, of Prince Albert, the other for Mr. R. F. Bond, St. Louis.
